1. [REDACTED] DAD/RR, called regarding a statement made at a recent meeting in DD/I's Office by [REDACTED] to the effect that it would be preferable if requests for training would be considered by Office Career Boards rather than solely by the ADs. I assured him that the manner in which O/RR is now handling such requests is a preferred manner and there should be no need for O/RR to change existing procedures.

2. Attended Professional Selection Panel meeting. The Panel had resubmitted to it a case which had been formerly turned down in that certain senior officials in the Agency are pushing for a reversal of a former Panel determination. New evidence was presented in documentary form which strengthened the feeling, by the Panel, that this individual is not suitable for career employment and the Panel voted 5-0 against career employment. It is possible that an issue will be made of this case by said Agency officials and the Panel feels that when its recommendations are not accepted, the full Agency Career Board should be advised and should overrule the Panel if any overruling is to be done.
